

Bayview Gateway Project

www.sfpublicworks.org/BGP

During the course of several community meetings the idea for Bayview Gateways was introduced and a large gathering of neighborhood residents and stakeholders identified a set of themes that visually articulate the area's expressions of identity and character, ecology and seasonality, and historical context and culture. Design elements were developed for a "kit of parts" that included plants and trees along with hardscape concepts that might be applied to sites identified as entrances to the neighborhood. During the July 31st community meeting, participants were asked to provide feedback on the design elements and proposed locations developed to date.

Our team has begun working on Gateway Guidelines that will be used to guide the design of the pilot Gateway project and will be available to the community to inform the design and implementation of future Gateway projects throughout San Francisco's communities.

Proposed Schedule – Next Steps

2016- July 2017
October 2017
March 2018

Community Meetings
Publish Community Feedback
Produce/Publish Guidelines

Project Team: San Francisco Public Works is partnering with the Bayview Hill Neighborhood Association, HOK and District 10 Supervisor Malia Cohen, neighborhood residents and merchants. For more information contact : Grace Moore at 415.558-5282 or grace.moore@sfdpw.org

July 31, 2017 Discussion and Feedback

During the July 31st community meeting, participants were asked to provide feedback on the design elements and proposed locations developed to date. We have compiled the responses and listed them below.

STATION 1

KIT OF PARTS: THREE THEMES

WHAT DO WE LIKE ABOUT THESE THEMES?

WHAT DID WE MISS?

Community preferred design elements:

- Mosaics
- Red buds
- Oak trees
- Benches
- Orchards
- Greenery
- Tradition
- Pollinator gardens
- Productive Landscapes

Suggested design considerations:

- Maritime history
- Kiosks
- Loitering
- Lighting
- Butchertown history
- Multi-cultural awareness
- Industrial history
- Consider fruit types
- Consider message "Welcome To..."
