

STREETSCAPE IMPROVEMENT PROJECT

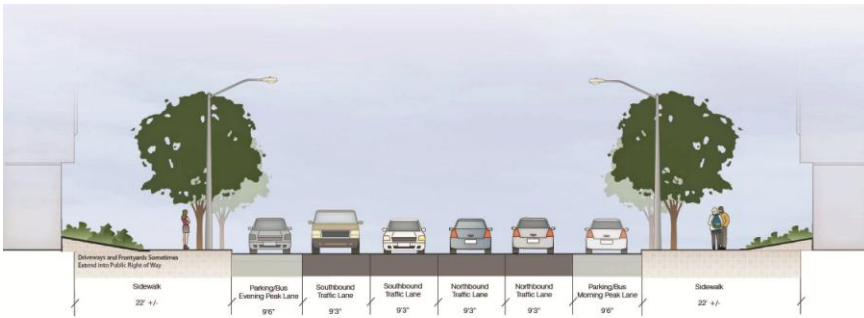

MASONIC STREETSCAPE

Masonic Avenue Streetscape Conceptual Plan

MASONIC AVENUE STREETSCAPE IMPROVEMENTS

The Masonic Avenue Streetscape Improvements Project between Geary Boulevard to the north and Fell Street to the south will provide improvements for pedestrians, bicyclists, motorists, and transit riders. The goal of this project is to safely and efficiently accommodate the needs of all roadway users. The improvements that are proposed are the result a planning process that involved DPW, the Planning Department, MTA, and Masonic Avenue residents and businesses.

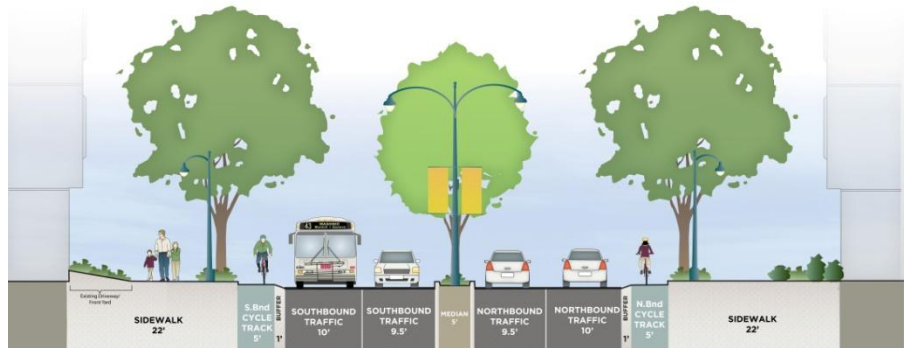

Masonic Avenue Typical Existing Roadway Section

Project boundary from Geary Boulevard to Fell Street

PROJECT HIGHLIGHTS

- Landscaped median
- Cycle tracks
- Widened portions of sidewalk
- Repaved street
- Bus bulb-outs
- Street trees
- Street and Pedestrian Lighting
- Converted triangular space and road on the southwest corner of Geary Blvd. and Masonic Ave. into a small plaza with a resident traffic only road, and a public art element.

Masonic Avenue Typical Proposed Roadway Section

Estimate Project Cost:
