

## **StreetTreeSF Annual Report**

### **Data Disclosure Statement**

The StreetTreeSF annual reports for FY 2017-18, FY 2018-19 and FY 2019-20 have been revised to update maintenance counts. The counts provided in previous versions of these reports did not accurately reflect the work completed by Public Works crews and contractor crews due to inconsistent data collection and tracking. We have since revised the data in the three annual reports to reflect the actual work performed. In addition, we have implemented a new method for collecting and tracking data to accurately document the completed work, avoid redundancies and ensure consistency.

As StreetTreeSF progresses, we will continually monitor data input and data extraction methods, and make any needed revisions and clarifications, while remaining transparent in the process.
