Reason(s) for Removal

- Tree is dead or dying
- Tree is hazardous
- Sewer damage
- Root pruning required to fix sidewalk will de-stabilize tree
- Other: **Sewer replacement & road paving project will excavate within roadway adjacent to trees. Due to the excavation proximity to tree trunks, tree size & median wall construction, there is a very high likelihood that an unsafe amount of structural roots will be removed, resulting in the need to remove the large pine trees. Alternate construction methods will be considered to determine feasibility to preserve tree root systems. Attempts will be made to preserve as many trees as possible.**

Replacement Tree

- Yes. Species To Be Determined
- No replacement tree
- Other: Locations and number to be determined by BUF staff.
